Denpasar, Bali, Indonesia

Informatics graduate with a strong interest in Full Stack Development and Mobile Development, with hands-on experience in web application development through internship and academic projects. Passionate about exploring new technologies, learning through challenges, and building practical solutions. Committed to contributing to projects through continuous learning and effective collaboration.

Work Experiences

PT Bali Internasional teknologi - Denpasar, Indonesia Aug 2025 - Feb 2026

Full Stack Developer Intern

- Contributed to the development of an internal Contract Management System, from analyzing requirements to developing and implementing frontend and backend features
- Worked closely with senior developers on REST API integration and testing, as well as testing and debugging application features
- Participated in client meetings to understand requirements and business processes, and supported the team in translating them into system features

Department of Informatics Atma Jaya Yogyakarta University - Yogyakarta, Indonesia Feb 2025 - Jul 2025

Assistant Lecturer Object Oriented Programming

- Assisted lecturer in educating students on theoretical concepts and hands-on code practice using Java Programming Language
- Assisted 200+ students on basic Object Oriented Programming concepts from Classes and Object to Design Pattern

Education Level

Universitas Atma Jaya Yogyakarta - Yogyakarta, Indonesia Aug 2022 - Jul 2026

Bachelor of Informatics, 3.74/4.00

- Achieved A grades in courses including Basic Programming, Object Oriented Programming, Web Programming, and Mobile Programming

Organisational Experience

Kelompok Studi Pemrograman Java - Yogyakarta, Indonesia Jan 2025 - Jul 2025

Tentor

A study group where students can learn about basic Object Oriented Programming based on Java Programming Language

- Assisted 30+ students on learning basic Object Oriented Programming using Java Programming Language
- Created learning module for Exception Handling

Kelompok Studi Pemrograman C - Yogyakarta, Indonesia Jul 2023 - Jul 2024

Tentor

A study group where students can learn about basic programming logic, flowcharts, and basic programming using C Programming Language

- Assisted 30+ students on learning basic programming using C programming Language

Programming In Contest - Yogyakarta, Indonesia May 2024 - Jun 2024

Secretariat

Programming competition where participants compete by solving code challenges using C programming language to assess participants' problem solving skill and collaborative abilities

- Responsible for making announcement to inform participant on learning modules, code challenges, competition rules, code reviews, and other updates
- Acts as contact person for participants' questions

Skills, Achievements & Other Experience

- **Projects Reusemart (2025):** Uses ReactJS, Flutter, Tailwind, Firebase, Laravel, and MySQL
- **Projects Website Atma Gym (2024):** Uses ReactJS, Laravel, and MySQL
- **Projects Mobile Unifit (2024):** Uses Flutter and MySQL
- **RevoU Fundamental Course Intro to Software Engineering:** Basic programming course for learning web development
- **Hard Skills Programming Language:** C, Java, Python, HTML, CSS, Javascript, Typescript, PHP, Dart

- **Hard Skills Web Framework:** Laravel, FastAPI, React, Next.js Bootstrap, Tailwind, Mantine
- **Hard Skills Mobile Framework:** Flutter
- **Soft Skills:** Attention to Detail, Problem Solving, Communication Skills
